This month's fly is John Bethke's Pink Squirrel Nymph. This pattern is Bethke's signature fly, and it is used widely throughout the country for trout. But as he says it will also catch carp, bass, crappie and bluegill. I'm not sure what it imitates, but Bethke concludes selectivity is rare unless there's a hatch, and he use the Pink Squirrel as his "go to" fly. Join the group at Backwoods this month. Equipment is available if you don't have your own.

Pink Squirrel Nymph

The Prairie Fly Fishers Halloween weekend trip to Arkansas was a big success. Plenty of fish were caught and many stories told. Chef Hartmann and numerous sous chefs prepared fantastic meals including a grouse pie – although the Chef was overheard to mention something about crow and owl. We also enjoyed a wonderful campfire without burning down one of Gene's cabins.
