He also specializes in smallmouth bass fishing in the Buffalo River, Kings River and Crooked Creek. Come and hear about the many fly fishing opportunities in northwest Arkansas and southwest Missouri. We'll see you at the meeting!**

Fly Tying Club ~ Tuesday, January 24, 7:00 pm

Backwoods (122<sup>nd</sup> St. at N. May)

**This month's fly is the Classic Pheasant Tail Nymph. This early nymph pattern was devised by Frank Sawyer, an English River Keeper. It was extremely effective on chalk streams throughout England. The original version used only very thin copper wire and pheasant tail (no thread) as shown in the picture. Many enhancements and variations have followed making the Pheasant Tail an all time favorite fly. Join the group at Backwoods this month. Equipment is available if you don't have your own.**
